

Apprenticeships delivered by the VCS for the VCS

Why work with us?

Enable is an established Voluntary and Community Sector (VCS) organisation that values being transparent and open. As we are a VCS organisation, we have a good understanding of the needs of other VCS organisations and how they work. Unlike private businesses, making profits is not top of our agenda.

When you work with us there are NO HIDDEN FEES OR CATCHES.

“Apprenticeships aren’t just for commercial businesses, they offer a great deal to our sector too. Employing people whilst investing in their skills works for all those involved.”

Don Hayes
Chief Executive
Enable

What are the benefits?

- Upskilling and motivating your employees
- The chance to achieve a nationally recognised qualification
- Support for the development of your organisation
- Meeting the Government Skills Pledge
- Increased skills and knowledge for staff

How does it work?

Your members of staff can access an Apprenticeship if they are employed for 30 hours a week or more. You will support them by passing on your skills and knowledge. They will be assessed at work by an independent training provider who has in-depth knowledge of the VCS and who will support them to ensure they meet the standards required by the national curriculum.
